

Dynasil Corporation Announces Addition of RMD to Corporate Website

October 25, 2018

NEWTON, Mass., Oct. 25, 2018 (GLOBE NEWSWIRE) -- Dynasil Corporation of America (NASDAQ:DYSL), a developer and manufacturer of optics and photonics products, optical detection and analysis technology and components for the homeland security, industrial, medical, and biotech markets, is pleased to announce its latest website upgrade and the availability of additional information and products at www.dynasil.com. Content previously available on Radiation Monitoring Devices's (RMD's) website has been updated and added to the corporate website.

"We are now sharing a more comprehensive story of our very successful research subsidiary, RMD, through our website," said Peter Sulick, Dynasil's Chairman and CEO. "Additionally, we are excited to announce that many of RMD's custom products are now available online at www.rmdinc.com."

In keeping with Dynasil's corporate website, launched in June of 2016, and the eCommerce function, launched in April of 2017, the additional material is optimized for all mobile devices and easy to view and use across all platforms. Visitors can sign up to stay up to date on latest products and news from the company, as well as sign up for investor focused email alerts. Our hope is that www.dynasil.com will provide our customers and investors a better understanding of the products and services Dynasil offers and of the incredibly important research and development work we do for the security, defense and medical sectors.

About Dynasil

Dynasil Corporation of America (NASDAQ: DYSL) develops and manufactures optics and photonics products, optical detection and analysis technology and components for the homeland security, medical and industrial markets. Combining world-class expertise in research and materials science with extensive experience in manufacturing and product development, Dynasil is commercializing products including dual-mode radiation detection solutions for Homeland Security and commercial applications and sensors for non-destructive testing. Dynasil has an impressive and growing portfolio of issued and pending U.S. patents. The Company is based in Newton, MA, with additional operations in MA, MN, NY, NJ and the United Kingdom. More information about the Company is available at www.dynasil.com.

Forward-Looking Statements

This press release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements regarding future events and our future results are based on current expectations, estimates, forecasts, and projections and the beliefs and assumptions of our management, including, without limitation, our expectations regarding Xcede's ability to obtain financing from outside investors. Actual results of the future events described in such forward-looking statements could differ materially from those stated in such forward-looking statements due to a number of important factors, including the availability of financing sources, as well as the uncertainties set forth in the Company's Annual Report on Form 10-K and from time to time in the Company's other filings with the Securities and Exchange Commission. The Company disclaims any intention or obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.
