

EMF Corporation Achieves ISO 9001:2015 Certification at Ithaca Location

January 14, 2019

NEWTON, Mass., Jan. 14, 2019 (GLOBE NEWSWIRE) -- Dynasil Corporation of America (NASDAQ: DYSL) today announced that its Evaporated Metal Films (EMF) subsidiary achieved ISO 9001:2015 certification for its original manufacturing location in Ithaca, NY. EMF designs and manufactures optical thin film coatings and components used in a variety of applications including automotive, display systems, instrumentation, satellite communications, astronomy, power and industrial lighting.

International Organization of Standards, or ISO, is the world's largest developer and publisher of international standards, and ISO 9001:2015 defines the requirements for Quality Management Systems. Using common standards aids in the design of quality products and services, increases business productivity and improves customer satisfaction.

"Bringing ISO 9001:2015 certification to our Ithaca location is great news for our Optics division, particularly in light of our recent expansion into the IR optics market," said Peter Sulick, Dynasil's Chairman, Chief Executive Officer and President. "The team at EMF is known for the "EMF Edge", which is exemplified by their focus on exceeding customer expectations, relentless focus on continuous improvement, and diligent compliance to quality."

"Extending EMF's ISO 9001:2015 certification to both New York locations is an important milestone and it provides additional assurance to our customers that we are focused on continuous improvement and customer satisfaction," said Paul Schulz, President of EMF. "For any company, the road to certification requires time and commitment. By achieving this level of certification we continue to demonstrate our commitment to continuously improving our products and services as well as our internal processes. The certification will be an essential ingredient in our constant pursuit to deliver innovative, high quality and customer-focused products & services."

About Dynasil

Dynasil Corporation of America (NASDAQ: DYSL) develops and manufactures optics and photonics products, optical detection and analysis technology and components for the homeland security, medical and industrial markets. Combining world-class expertise in research and materials science with extensive experience in manufacturing and product development, Dynasil is selling and continuing to develop products for dual-mode radiation detection solutions for security and commercial applications and sensors for non-destructive testing. Dynasil has an impressive and growing portfolio of issued and pending U.S. patents. The Company is based in Newton, Massachusetts, with additional operations in Massachusetts, New Jersey, New York and the United Kingdom. More information about the Company is available at www.dynasil.com.

Forward-looking Statements

This news release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements regarding future events and our future results are based on current expectations, estimates, forecasts, and projections and the beliefs and assumptions of our management. These forward-looking statements may be identified by the use of words such as "may," "could," "expect," "estimate," "anticipate," "continue" or similar terms, though not all forward-looking statements contain such words. The actual results of the future events described in such forward-looking statements could differ materially from those stated in such forward-looking statements due to a number of important factors. These factors that could cause actual results to differ from those anticipated or predicted include, without limitation, our ability to develop and commercialize our products, the size and growth of the potential markets for our products and our ability to serve those markets, the rate and degree of market acceptance of any of our products, general economic conditions, costs and availability of raw materials and management information systems, our ability to obtain and maintain intellectual property protection for our products, competition, the loss of key management personnel, litigation, the effect of governmental regulatory developments, the availability of financing sources, our ability to identify and execute on acquisition opportunities and integrate such acquisitions into our business, and seasonality, as well as the uncertainties set forth in the Company's Annual Report on Form 10-K and from time to time in the Company's other filings with the Securities and Exchange Commission. The Company disclaims any intention or obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.
